1. How to set up a new GitHub account?

1. Go to the GitHub Sign-Up Page

- Open a web browser and navigate to https://github.com/

- Click on the **"Sign up"** button in the top-right corner of the page.

---

2. Fill Out the Registration Form

- Enter the following details:

    1. **Email Address:** Provide a valid email address and click "continue."

    2. **Password:** Create a strong password (at least 8 characters long, including letters, numbers, and special characters) and then click "continue."

    3. **Username:** Enter a username and click "continue."

---

3. Complete the Puzzle (Captcha Verification)

- GitHub might prompt you to solve a small puzzle or captcha to verify you're not a bot.

---

4. Enter the launch code sent to the email provided.

5. Verify Your Email Address

- GitHub will send a verification email to the email address you provided.

- Open your email inbox, find the message from GitHub, and click the verification link.

---

7. Log In to Your GitHub Account

- Return to https://github.com/ and log in using your username/email and password.
